Share Class Inception: SDR – 9/30/21. A, Y, I and F – 2/28/22. Performance shown prior to the inception of a class reflects performance and operating expenses of another class(es) (excluding sales charges, as applicable). Had fees and expenses of a class been reflected for the periods prior to the inception of that class, performance would be different. Since inception (SI) performance is from 9/30/21. Performance and expenses for other share classes will vary. Additional information is in the prospectus. Only Class A assesses a sales charge.

**MSCI Emerging Markets Index** is a free float-adjusted market capitalization-weighted index that is designed to measure equity market performance in the global emerging markets. MSCI index performance is shown net of dividend withholding tax. Indices are unmanaged and not available for direct investment.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For more current performance information to the most recent month ended, please visit hartfordfunds.com.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses. This and other important information is contained in a fund's full prospectus and summary prospectus, which can be obtained by visiting hartfordfunds.com. Please read it carefully before investing.

Effective 3/1/24, the Fund's principal investment strategy was modified. Returns prior to 3/1/24 reflect the performance of the Fund's modified principal strategy.

<sup>1</sup> Expenses as shown in the Fund's most recent prospectus. Gross expenses do not reflect contractual expense reimbursement arrangements. Net expenses reflect such arrangements in instances when they reduce gross expenses. These arrangements remain in effect until 2/28/25 unless the Fund's Board of Directors approves an earlier termination. Without these arrangements, performance would have been lower.

Mutual funds are distributed by Hartford Funds Distributors, LLC (HFD), Member FINRA. Advisory services are provided by Hartford Funds Management Company, LLC (HFMC). **Important Risks:** Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks may be greater, and include additional risks, for investments in emerging markets or if the Fund focuses in a particular geographic region or country, such as China. • Risks associated with investments in China include currency fluctuation, political, economic, social, environmental, regulatory and other risks, including risks associated with differing legal standards. • Different investment styles may go in and out of favor, which may cause the Fund to underperform the broader stock market. • Small- and mid-cap securities can have greater risks and volatility than large-cap securities. • Derivatives are generally more volatile and sensitive to changes in market or economic conditions than other securities; their risks include currency, leverage, liquidity, index, pricing, regulatory and counterparty risk. • The Fund may have high portfolio turnover, which could increase its transaction costs and an investor's tax liability. • The Fund's investments may fluctuate in value over a short period of time. • Financially material environmental, social and/or governance (ESG) characteristics are one of several factors that may be considered and as a result, the investment process may not work as intended.

**Asset Weighted Market Cap** is the value of a corporation as determined by the number of outstanding shares of common stock multiplied by the price per share. **Price/Book** is the ratio of a stock's price to its book value per share. **Price/Earnings** is the ratio of a stock's price to its earnings per share. **Return on Equity** is the average amount of net income returned as a percentage of shareholder's equity over the past five years.
