PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE AND DOES NOT GUARANTEE FUTURE RESULTS. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For more current performance information to the most recent month ended, please visit hartfordfunds.com.

Share Class Inception Dates: ITBIX (8/31/06), HSAEX (11/12/21), HSDIX (2/26/10), HAHIX (5/31/07), HIPIX (8/31/06), HFLIX (8/31/06). Performance prior to the inception of a class reflects performance and operating expenses of another class(es) (excluding sales charges, as applicable). If applicable fees and expenses were reflected, performance would have differed. Hartford Schroders Core Fixed Income Fund performance prior to 11/15/21, and other Hartford Schroders funds performance prior to 10/24/16 reflects the performance, fees, and expenses of a predecessor fund.

ETF shares are bought and sold at market price, not net asset value (NAV). Total returns are calculated using the daily 4:00 p.m. Eastern Time NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns an investor would receive if they traded shares at other times. Brokerage commissions apply and will reduce returns.

¹ Expenses as shown in the Fund's most recent prospectus. For HDBIX, HSAEX, HLDIX, SMSNX, HAHIX, and HFHIX: Gross expenses do not reflect contractual expense reimbursement arrangements. Net expenses reflect such arrangements in instances when they reduce gross expenses. These arrangements remain in effect until 2/28/25 unless the Fund's Board of Directors approves an earlier termination. Without these arrangements, performance would have been lower. For HFLIX: Expenses as shown in the Fund's most recent prospectus. Gross expenses do not reflect contractual expense reimbursement arrangements, if any. Net expenses reflect such arrangements in instances when they reduce gross expenses. These arrangements remain in effect until at least 2/28/25. Without these arrangements, performance would have been lower.

² Within approximately the last year, the Fund has undergone changes which may have included the fund name, objective, principal investment strategy and/or benchmark. For more details, see the applicable Fund's prospectus.

Important Risks: Investing involves risk, including the possible loss of principal. • Fixed income security risks include credit, liquidity, call, duration, inflation, event and interest-rate risk. As interest rates rise, bond prices generally fall. • Municipal securities may be adversely impacted by state/local, political, economic, or market conditions. Investors may be subject to the federal alternative minimum tax as well as state and local income taxes. Capital gains, if any, are taxable. • Loans can be difficult to value and less liquid than other types of debt instruments; they are also subject to nonpayment, collateral, bankruptcy, default, extension, prepayment and insolvency risks. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks may be greater, and include additional risks, for investments in emerging markets.
