RISK DISCLOSURE

An investment in the Fund involves substantial investment risk with the potential for attractive returns. An investment in the Fund may be appropriate for investors with a long-term investment horizon who have the risk tolerance commensurate with an investment in the Fund and sufficiently understand the Fund's strategy, characteristics and risks, and have sufficient liquid assets to absorb potential losses and accept the lack of liquidity.

Alternative investments are complex, speculative investments and are not appropriate for all investors. All investors in the Fund must be "Accredited Investors," as defined in Regulation D under the Securities Act of 1933. Please note tax-exempt investors (such as retirement accounts) may be subject to unrelated business taxable income if invested in the Fund. Tax-exempt investors are urged to consult with their own tax professional prior to making an investment in the Fund.

An investment in the Fund is considered illiquid.

Investing involves risk, including the possible loss of principal. Investors should carefully consider a fund's investment objectives, risks, charges and expenses. This and other important information is contained in the prospectus, which can be obtained from a financial professional and should be read carefully before investing.
